SERVICES RENDERED BETWEEN UNIFE AND TÜV SÜD ON THE UPDATING OF THE LIST OF APPLICABLE LEGISLATION

WKD-STR-004

Issue 12
Date: 04/01/2017
Page 1 of 9

TITLE

LISTING OF DIRECTIVES RELATING TO RFU-PLG-013

PROVIDER

TÜV SÜD DANMARK APS

SUBJECT RELATED TO

EU WEBSITE "LIST OF REFERENCES OF HARMONISED STANDARDS"

DESCRIPTION AND BACKGROUND EXPLANATION

RFU-PLG-013 requires the compilation of a listing of European Legislation, to be maintained for the use of the railway industry as to enable their compliance. This document is the current listing. The list will be updated every two months.

NOTE: This list is for information only and no assurance is given as to its accuracy, completeness or sufficiency.

PROPOSAL

The origin of the listing of legislation in Section A to D is taken from the EU website "List of references of harmonised standards" (http://ec.europa.eu/growth/single-market/european-standards/harmonised-standards/index_en.htm). An overview of the references of legislation based on the principles of "New Approach" or "Global Approach" and harmonised standards can be found on this EU website. Although it is updated regularly, it may not be complete and only publication in the Official Journal produces legal effect.

Information provided on the above mentioned website ("List of references of harmonised standards") is split into three columns.

Proposal for new text: As a rule, all rules and regulations amending the directive as registered on EUR-LEX are listed in this work document.

Text of Legislation and Amendments (column 1)

The links provide access to the texts of the corresponding legislation which are accessible in all official Union languages on the EUR-Lex website.

The EUR-Lex site hosts the electronic version of the legal acts in force set out in the Official Journal of the European Union, along with the Directory of Union legislation in force which provides access to the texts of such legal acts and to information on their dates of adoption, entry in force, application, end of validity and relationship with other documents (amendments, corrections, legal basis, consolidated versions, etc).

The texts provided in the directory are intended for use as documentation tools and the Institutions do not assume any liability for their content. For legal purposes please refer to the texts published in the 'Official Journal of the European Union'.

Consolidated version of legislation (column 2)

The links provide access to the consolidated texts of the legislation which are

Page 2 of 9

accessible in all official Union languages on the EUR-Lex website.

Through consolidation, the basic instruments of European Union legislation, their amendments and corrections at the moment of the release of the consolidated version are integrated into a single, non-official document. Newer legislation are not implemented into the consolidated version before some time after publication and thus have to be read in addition to the consolidated version.

These texts have no legal value and they are intended only for use as documentation tools. The Institutions do not assume any liability for their content.

Subject (short title of legislation). Lists of references of harmonised standards and general information (column 3)

The links provide access to general information about the legislation, to the publications of the references of harmonised standards in the Official Journal and to the summary lists of titles and references to harmonised standards of the corresponding legislation.

The information contained in the summary lists is a compilation of the references of standards which have been published in the Official Journal of the European Union.

Although the lists are updated regularly, they may not be complete and they do not have any legal validity; only publication in the Official Journal produces legal effect.

Information about references of harmonised standards which were recently published in the Official Journal is available on the following website:
http://ec.europa.eu/growth/single-market/european-standards/harmonised-standards/index_en.htm

(Grey-shaded legislation are perceived to have no relevance to Rail applications)

(Yellow shaded items are new since last issue)

*) : Depending on the context the legislation is either relevant or not

Section A: New Approach Legislation (EU Legislation providing for CE marking)

| Text of Legislation and Amendments | Legislation Consolidated version | Short title of legislative document |
|---|----------------------------------|--|
